Are you Operating Legally?

Use the following checklist as a basic guide for making sure you can prove it.

- ✓ **Driver's license** – A current valid license for the vehicle you're driving.
- ✓ **Medical card** – A current valid medical exam certificate.
- ✓ **Logs** – A current log for today, plus the previous 7 days, and supporting documents such as toll and fuel receipts (driver's logs are not required if you are operating within a 100 air mile radius).
- ✓ **Proof of annual inspection** – Inspection stickers on the tractor and trailer, or a copy of the annual inspection report, or documentation required under a state inspection program.
- ✓ **Bill of lading / shipping paper** – A bill of lading or other shipping paper for-hire shipments, or load documentation for private, or contract shipments.
- ✓ **Hazmat paperwork** – Depending on the hazardous material being hauled, you may need: shipping paper hazardous waste manifest, emergency response handbook, and a copy of the certificate of registration (if the registration number is not on another document).
