

Ask Dave

- Q.** *Our Fleet Manager said that if our 20 drivers keep getting speeding tickets or other 'unsafe driving' violations that the company could be shut down. Is that true?*
- A.** Yes. Under the new CSA2010 Enforcement Initiative if drivers continually have violations in the 'unsafe driving' or the 'fatigued driving' BASIC categories, a carrier can lose its authority to operate a fleet! Stay safe and stay in compliance. All our driver jobs depend on it!
